SHIP SUPPLY

Our logistics expertise is a core element of our competitive edge and provides us with the foundation to serve every vessel, platform or military operation based on a thorough understanding of your individual needs - encapsulated in our mission:

Expert Care to Each Ship & Offshore Location

Let our Owners Goods Warehouse System handle your goods in close cooperation with our own forwarder Wrist Marine Logistics and optimise your budget control and health at sea with the Wrist-XENA catering software program.

“

We provide a 24/7/365 service for every marine, offshore and navy operation, including land operations.

■ Handling owners' goods

Transport of owners' goods between European ports is one of the services appreciated by our customers. We are a reliable and flexible partner in your European owners' goods transport network.

Our network of storage facilities and logistics expertise makes us able to collect, store and deliver owners' goods more efficiently than owners typically can themselves.

■ Logistics

Wrist Marine Logistics is a world-leading provider of all logistics services to ship owners and ship managers worldwide. We protect your interests across every aspect of the transportation process and take great pride in providing on-time delivery as cost efficiently as possible.

■ Naval operations

We proudly supply naval fleets from e.g. Germany, Russia, Canada, Australia and Denmark and we are main supplier of provisions and stores to civilian operators. In other words, a proven and trusted partner for naval operations.

■ Wrist-XENA

Wrist-XENA is aimed at streamlining the purchasing process for ship supplies, optimising vessel economy and improving health at sea.

Savings can be generated through a targeted and cost efficient assortment and optimised purchasing process, at the same time improving health at sea. This ensures compliance with the demands outlined by the Maritime Labour Convention (MLC) 2006.

■ Budget management

With our budget management possibilities you can achieve a more streamlined operation profile, along with ensuring provision for your vessels anywhere in the world at the best possible cost base. By taking over the entire procurement and supply process for your vessels, we will help you increase efficiency, reduce overheads and still ensure quality for the crew on board.
