Time to be aware

Time to be aware

We want to make it easy for you to be environmentally aware. With the aware product range, we provide you with responsible alternatives to the conventional products used in the maritime industry.

Climate smart

Recyclable

Renewable

Fresh inside

Aware is your choice for:

- Eco-friendly solutions and services
- Quality products in cooperation with recognized trademarks
- A product line that meets the increasing need for reducing our carbon footprint and other environmental hazards in the maritime industry

What qualifies an aware product?

When production, distribution or usage is proven optimized, reducing the climate impact, we call it *Climate smart*. Proven recyclable packing or materials is labeled *Recyclable*, and products and packing that come from certified renewable resources are *Renewable*. *Fresh inside* is safe quality foods that are less processed, healthy, nutritious, or partially/fully organic.

Responsibility behind the brand

With thousands of different products and solutions delivered to seafarers around the world, we are aware of our contribution to the climate footprint. That is why we have introduced a new range of products reducing the climate footprint.

Our aware products do not save the seas overnight, but it is a responsible choice to conserve and use the oceans while caring for seafarers in a future perspective – starting from now.
