## Time to be aware

## Recyclable carton made from 75% renewable materials

### Features

The fresh water comes in recyclable carton, aiming to reduce the amount of plastics in our oceans. It is mostly made from certified natural resources, such as FSC-certified paper and Bonsucro-certified sugar cane, ensuring the materials are responsibly harvested.

### Benefits

- Made from renewable natural resources
- FSC-certified and Bonsucro-certified
- Recyclable materials
- Suitable for compressor
- Optimized storage

Carton materials	
72.2%	FSC-certified paper
11.8%	Bonsucro-certified sugar cane (plantbased plastic)
11%	Protective layer of BPA-free plastic film
4.1%	Aluminium foil layer protecting water from potential contamination
