

Climate smart multi-purpose cleaner

Features

Masava Max is an EU eco-labeled, highly effective, water-based alkaline cleaner and heavy-duty degreaser. It is specifically developed according to the newest international standards for degradability.

Specifications

- Contains no organic solvents, improving the work environment
- Effectively removes oil, grease and dirt from all kinds of applications such as engines, machinery, deck, floors, filters and exhausters
- The product is an aqueous solution of non-ionic tensides, glycolether, silicate and calciumbinding agent.
- An approved HOCNF data sheet, according to the extended Norwegian, British and Danish rules, is available.
- Reduces plastic in circulation by 80%
- Squared box - can be folded, flattened, and stacked
- Optimizes storage on board
- Approved for incinerator

Climate smart

Product attributes

Physical State	Liquid
Color	Yellow
Danger Symbol	Irritant
pH concentrated	13.5
Specific gravity	1.05 g/ml
Packaging	10 liter box

Climate smart multi-purpose cleaner

Features

Masava Max is an EU eco-labeled, highly effective, water-based alkaline cleaner and heavy-duty degreaser. It is specifically developed according to the newest international standards for degradability.

Effectively removes:

- Oil and grease
- Dirt and general grime
- Vegetable and animal oil
- Carbon based deposits and soot
- Deposits from inert gas systems
- Bio Coatings
- Nicotine
- Degreasing before painting

General guidelines for diluting with water:

- Deck, bulkhead, Scaffolding:
 - Heavy 1:10 | General up to 1:50 | Light 1:100
- Engine room:
 - Heavy 1:1-1:5 | General up to 1:50 | Light 1:50 – 1:100
- Accommodation:
 - Heavy 1:50 | General 1:100
- Galleys and Pantry:
 - Heavy 1:50 | General 1:100
- Filters: Soak for approx. 15 min.
 - Heavy 1:5 | General 1:10

Use on applications such as:

- Engine and machinery parts, including washing machine
- Tools
- Workwear, carpets, and upholstery
- In-situ cleaning of air coolers and heat exchangers
- Purifier & discs
- Fuel and lube oil filters
- Sponge candle filters
- T/C And air intake filters (Viledon ect)
- Deck and Bulkheads
- Pump room
- Floors, floor mats, walls and ceilings
- Exhaust fans and hoods in engine rooms and kitchens
- Other surfaces that withstands water
