EXPERT CARE

– making our customers' life at sea better

Dear Customer

Welcome to our new 2021 Wrist Catalogue.

As always we strive to create a catalogue that meets the demands of our customers, offshore and onshore. We hope that the selection and quality we chose, will back our mission: EXPERT CARE – MAKING OUR CUSTOMER'S LIFE AT SEA BETTER.

We will continuously develop our global and regional assortment and sourcing patterns, to ensure competitive pricing and a uniform product range. We always try to honor the environmental aspect of our business, ensuring that products are green and environmental friendly.

2021 will hopefully be prosperous for both our corporation and businesses, and that we together will end up stronger than ever before.

We look forward to continue working together with You as Your preferred partner in 2021

SKAGERRAK
NORDIC DRY GIN

NORDIC BY HEART

No sea is like Skagerrak. It is Nordic by heart, and it has inspired us to create Skagerrak Gin in close collaboration with six selected Nordic bartenders. It is classic dry gin with clear juniper flavour but with a unique Nordic profile containing distillates from Nordic botanicals like angelica with refreshing notes of elderflower, rosehips and seaweed known as dulse.

Many small changes can make a big difference!

That is the reason for our new line of environmentally- allergy- and socially responsible products

ZWP Almighty balm can be used on lips, hands and body. It does not contain perfume but has a natural light scent of chocolate from cacao butter. It contains vitamin-E which has anti-inflammatory properties and skin healing qualities. The balm does not contain water which makes ideal for use also in environments with temperatures under 0 degrees. The container is made of recyclable metal.

Caliquo toothbrushes are made of 70% organic plant oil. When the toothbrush needs to be replaced you only replace the head and not the entire toothbrush. It is estimated that on average people use 329 toothbrushes in a life time - so just changing the head instead of the whole brush will have a great impact on Co2 savings.

Lekker deocreme is produced without alcohol and Aluminium. It contains baking soda that eliminates bacteria and smell, coconut oil that makes it antibacterial. The deocreme is delivered in a recycled paper zero waste paper "bag" and a container made of cardboard. The 30 ml deocreme is enough for a two month use.

Balade en Provence Handmade Shampoo bar is organic and is made of 100% natural ingredients. It contains more oil than a normal soapbar, making it great for nourishing the scalp and leaves the hair soft. The 40 gr shampoo bar gives you the same amount of hair washes as two bottles of normal shampoo. By reducing the amount of water you transport (80% in a normal shampoo) and also the plastic bottle - you will gain a reduction of 400% Co2 compared to liquid shampoo.
