

**Ready
when you are**

SHIP SUPPLY

Provisions
Stores
Marine logistics
Owners' goods
Contract catering
Bulk trading

Just say when

You are here. But your vessels are there. And there. And there.... Yet somehow you have to resupply them before they move on to their next destination.

Supplying a ship is like hitting a moving target. There is a brief window of opportunity when it is in port. Then suddenly it is gone. Fortunately there is an organisation with the experience and resources needed to help you succeed every time. And all you have to do is say Wrist.

Wrist stocks just about everything and delivers just about everywhere, so it is really just a question of telling us when your vessels will be in port. After that, sit back and relax, knowing

READINESS IS A STATE OF MIND

your order will be delivered right on schedule by the most professional team in the ship supply industry.

Modern way

Wrist is about today's world—a world in which purchasing departments are busier than ever. Liaising with different ship suppliers eats up scarce time and can generate more paperwork than profits. Wrist offers an alternative. Think of us as your one-stop shop: a big-box store for the marine industry, where everything is already on the shelf and prices are

competitive—where you can shop by catalogue, order electronically and get home delivery in ports worldwide.

And Wrist is not just about provisions and stores. We are pushing the one-stop envelope all the time to meet the maritime industry's need for new services and savings. Our marine logistics and owners' goods services are helping owners and ship management companies cut warehousing and logistics costs. Our business intelligence statistics let buyers see—item by item and ship by ship—exactly what they are spending worldwide. And our contract catering service lets owners trim costs by outsourcing a non-core yet key activity.

Ships, offshore platforms, military bases, embassies, hotels, resorts....Just say when.

Global coverage
24/7/365 service
Uniform quality worldwide
Volume scale prices
End-to-end logistics
Storage in key ports
Consolidated deliveries

Just say where

Ship chandlers have traditionally been small businesses, anchored in the local community. A fine tradition—Wrist started out that way in Denmark in 1953. But times have changed, and while small ship supply companies have their merits, your fleet cannot go global if your supply lines are still local. And today global is where the action is.

Wrist has brought ship chandlery into the 21st century, creating a company that combines global reach with a local touch. Our people are local—but product quality, prices, terms and conditions are uniform across the board. Wrist coordinates its worldwide activities through regional centres in Europe, the

ORGANISED FOR THE 21ST CENTURY

Middle East, Asia and the United States, with operations spanning the world's sea-lanes in line with the needs of today's global shipping companies.

Both ends

Wrist generates efficiencies upstream and down. We make globalisation work to your advantage on the buy side—going literally to the ends of the earth to obtain goods directly from the world's most cost-competitive producers and manufacturers. Our bulk trading division goes straight to the source, bypassing in-between links that add costs and driving down prices by purchasing in volume.

On the sell side we stock provisions and stores in key ports worldwide, so you never have to go out of your way to get them. Our hubs are your hubs—there is no need for detours, no in-port delays, no time spent off-hire because you are missing a spare part. What is more, Wrist puts everything together for you, turning separate orders from different sources into efficient consolidated deliveries.

High-volume purchasing and consolidated deliveries help keep prices low.

Choose from over
100,000 items
In-port and off-limit delivery
CD-ROM catalogues and EDI
Web tracking of
owners' goods and spares
ISPS compliant

Just say what

Work gloves? Safety equipment? Mops? Or maybe you want to stock up on rice, mineral water, chicken or fish? Just say what...Wrist has everything needed above and below deck, from food and drink to nuts and bolts. We carry more than 100,000 different items, all of it available at the touch of a button.

Convenient shopping

Why not start by strolling down the aisles of our catalogue? Available in print and on CD-ROM, it is a great way to get an overview of the choice and value for money that awaits you.

Ordering can take place anyway you like—locally by phone or centrally by EDI. But regardless of *how* you buy you will always know exactly *what* you have bought, thanks to our uniform item numbering system. It

CHOOSE FROM MORE THAN A HUNDRED THOUSAND ITEMS

provides a complete and transparent record of your purchases with Wrist worldwide.

New trends

Just as important, you will know what you should be buying in the future to meet changing tastes. For example, Wrist can help you take advantage of new trends like the current boom in fitness and healthy low-fat foods. At times when manpower is tight, innovation in areas like food service can be effective in attracting crews and keeping them “on board.”

With our network of storage facilities and logistics expertise, we are also

able to collect, store and deliver owners’ goods more efficiently than owners typically can themselves. Why not outsource the task to Wrist? We will streamline the process and reduce your administrative costs.

And then there is the pressing issue of ship security. Basically, the fewer the people with access to your vessel, the better. Ship supply with a single ISPS-compliant partner like Wrist reduces your in-port risks.

In addition to ship supply, Wrist offers bunkering, ship agency, shipping, airfreight and related marine services through its affiliates in the Wrist Group. It is one very smart way to shop.

Enjoy greater choice and quality plus the convenience of one-stop shopping.
