

Wrist Marine Logistics Copenhagen – Smart and Efficient WML Control Tower Solution with Complete Door-to-deck Visibility

Smart and Efficient WML Control Tower Solution with Door-to-deck Visibility

Orchestrating the Supply Chain of your spare parts around the world can be complicated. With the WML Control Tower Solution, we handle your Ship Spares with efficient, compliant and cost-effective logistics – through one Point of Contact globally.

We know that you are often challenged by:

- **Lack of end-to-end orchestration**, fragmented sourcing, high vendor count and inconsistent delivery quality for your spare parts
- **Lack of visibility** in your supply chain
- **Highly complex data landscape** – difficult to generate insights that take your business to the next level

The WML Control Tower door-to-deck solution allows you to focus on your core business to:

- ✓ **Ensure smooth operation** with timely delivered, worry-free, spare parts on deck of your vessels
- ✓ **Save costs and time** on coordination and administration (reduced Total Cost of Ownership)
- ✓ **Access a single view** of all supply chain data and insights to become more agile and responsive to changes in your business

Perfect for Shipowners • Ship Managers • Offshore Operators

Global door-to-deck logistics;

WML Control Tower – Global Marine Logistics with Door-to-Deck Visibility

A global and central logistics hub that manages every step door-to-deck – from supplier to vessel – across all parties and transport modes involved, with one dedicated point of contact.

Managing Your Logistics Globally

Proof of Value

Expert Care: 5 good Reasons to Unlock the WML Logistics Portal

1. 100% Transparency

Follow the entire delivery process, your supplier's shipment history and delivery performance

2. Automatic Real-time Tracking

Get access to your tailored live status on each order, such as, weight, value and invoice

3. In-depth Transport Reports

Keep track of your orders on transport mode, destination, departure city and shipments

4. Unlimited Integration

Achieve unlimited EDI-based integrations between FMS/ERP and other vital systems

5. CO2 Emissions Calculation

Calculate CO2 emissions per order, per vessel and for your entire spare parts freight

About Us

- Wrist Marine Logistics (WML), part of Wrist Ship Supply Group, specializes in Marine Logistics and Supply Chain Management, setting the new standard in operational excellence.
- At WML, a better life at sea means easy access to vital marine spare parts – delivered door-to-deck, globally and on time. Through seamless digital integration, our logistics data insights help our customers simplify operations and reduce Total Cost of Ownership (TCO).
- Our solutions are designed to simplify operations, reduce complexity and lower cost and emissions. By consolidating deliveries, wherever possible, we seamlessly complement your marine supplies from Wrist Group Companies, integrating spare parts, provisions and stores into one delivery – Easy to do business with.
